We thank you for your business in 2011 and look forward to working together this coming year. We've seen many challenges in the past 12 months with ever rising inputs and highly volatile grain markets. Through this period however, you as growers have continued to pursue better management skills and improve your operations. We recognize all your efforts and want to make sure we can help you with equipment, parts, and service needs.

We are heading into the spring of 2012 very rapidly, and **AMS classes are just around the corner**. Many of you have been asking about John Deere FARMSIGHT, and we will touch on the products associated with it throughout all classes.

We will offer a basic **APEX & GS Beginner Class** for those who have never seen the APEX program and are brand new to Greenstar Equipment. We will be going over set up and documentation, in and outside class, using equipment for real life demonstrations.

We will also be offering an **Advanced APEX class** that will cover Reports, Management Zones, Agronomic Trends, and Record Keeping. This class will also go over advance applications as we progress in the future.

This year will be the first year of **JDLink Class**. This class is for everyone who has purchased a 6R, 7R, 8R, 9R, and S series combines, as well as those of you who have purchased JDLink select and ultimate kits for your earlier model equipment. We will be going over the new technology and where it can take you.

In rounding off the spring, we will be offering our exclusive **Planter Systems Class**. This class will focus on the tractor and planter set up as well as AMS equipment attached to it.

We are again offering our **AMS Support Package** at \$500/Farm. This will cover 2 Classes, unlimited phone support, updates done in-house, and monthly emails. Additional classes to this program will be \$100/session. If you are interested in only coming to one class specifically, the cost will be \$150/session. Many of you received this with the purchase of equipment this past year, but we encourage you to talk with your salesman about this and other classes and optimization packages available through Haug Implement Co.

Please look over the schedule, and call us with your preference:

| | | | |
|------------------|-----------------------------------|------------|------------|
| February 8 & 9 | Beginner Apex and GS Class | Litchfield | 9am – 3pm |
| February 15 & 16 | Beginner Apex and GS Class | Willmar | 9am – 3pm |
